

Digital Transformation Accelerator

Digital Transformation of Governments

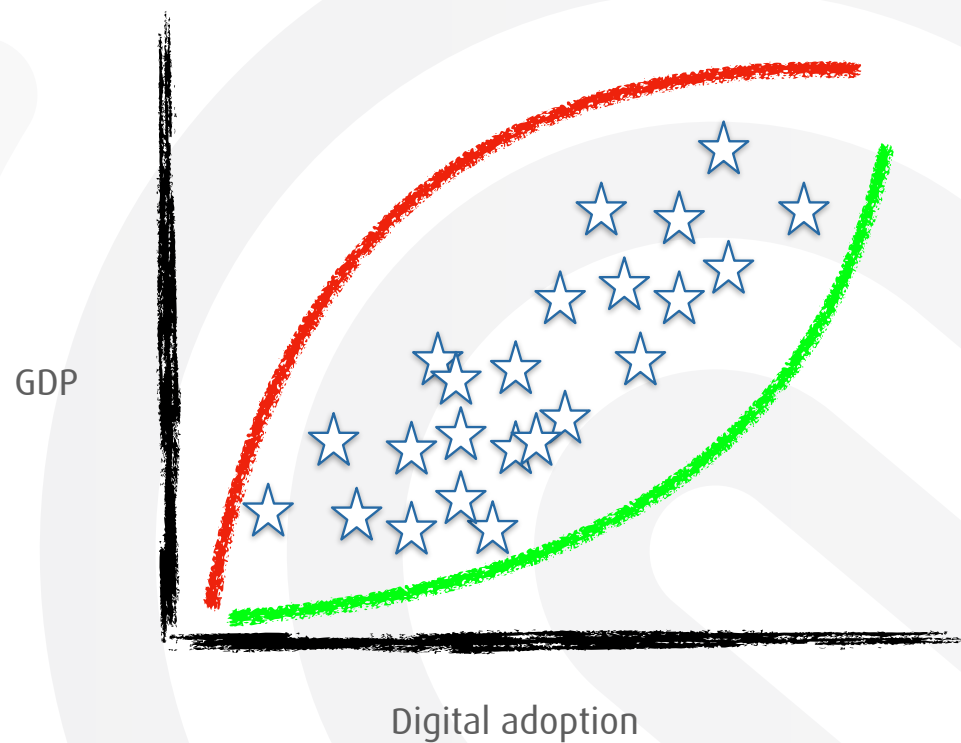

- All sectors of society have digital opportunity
- All governments have digital agenda
- Digital technologies that governments use are same
- There is similarity between the public administration among different governments
- Interdependencies and complexity between sectors is increasing
- Speed and inclusiveness are critical success factors

Information Explosion

Digital Roadmaps are unique

**Governments
should be able
to think and
act like
Startups**

Digital Transformation Accelerator

- Selected cohort of countries working together in batches
- World class coaching and mentoring
- Focus on agile, inclusive implementation
- Addressing clearly defined issue
- 12 months period divided to 4 semesters (1 week each)with concrete goals
- Weekly conf calls with mentors/advisers

**What will be the
first topics?
Who are first
countries?**

Topics - broad vs narrow

- Digital Agenda/Strategy for country
- Digital Agenda for Ministry
- Digital Banking nationwide
- Mobile micropayments
- Digitalisation of Public registries/databases
- Data sharing architecture
- Cyber Security
- Affordable Access
- Digital ID
- Digital Skills

The background of the slide is a solid green color with several thick, wavy, concentric lines in a teal or turquoise shade. These lines are arranged in a way that creates a sense of depth and movement, resembling stylized ripples or a topographical map. The lines are more densely packed in some areas and more spread out in others, creating a dynamic visual effect.

**Time for open
discussion**
